

# Raigo Lilleberg

With over 10 years of experience across EU and US startups, building systems that eliminate design debt and optimize workflows, enabling teams to ship faster with sustainable processes—not just pretty designs.

Currently expanding into frontend engineering and deepening web accessibility knowledge (WCAG, ARIA, EAA) to complement desktop and mobile UX/UI experience.

Also eager to contribute to broader strategic initiatives and work effectively both asynchronously and autonomously.

**Core skills**

- Product design & UX/UI
- Design systems & component libraries
- Design consultation
- Accessibility audits & compliance
- Cross-functional team collaboration
- Remote & asynchronous work
- Prototyping
- Figma, Cursor, Git, Github, LLM's
- Front-end development
- AI integrated workflows, optimization
